## Idea

I've always loved reading, but it's gotten to the point where I have hundreds of books on my to-read list. For my design project, my plan is to create a social media post series on book recommendations by trope. These kinds of posts are pretty common, but the tropes that they use tend to be fairly general (enemies to lovers and found family are two such tropes) to appeal to a wider audience. What I'd like to do with my project is use specific characteristics in my recommendations to give people a better idea of what each book has.

## Inspiration

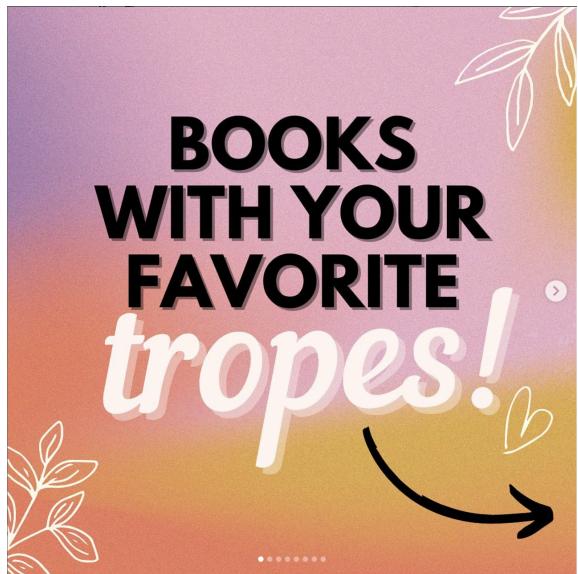

My mother got me this book a few years ago, and 15 year old me was in awe at how amazing and beautiful this book of books was.
